Director's Statement

This movie was made with less money than you'd find in the pockets of the people sitting in the theater watching it. Based on the writer/actress' experience growing up, I didn't want to dishonor Micaela's pain and having a larger budget, a committee of producers and an awareness of the film's future may have done that. I'm glad the film's financial limitations gave us the freedom to be ugly, messy and as close to reality as we could get. We never thought of how the film would come across to audiences. We just made the film the way the film would let us make it.

Cast Bio

Quintuple threat Micaela Wittman recurred on the fifth season of MTV's TEEN WOLF, and other credits include SHARP OBJECTS, ATYPICAL, SPEECHLESS, A.P BIO and MODERN FAMILY. Up next she will be appearing in Netflix's SHIRLEY opposite Regina King and Lucas Hedges. Matt Fagerholm of RogerEbert.com praised her "tour de force performance" as the titular role in CLAIREVOYANT, a Myriad pictures film. She is a CELINE brand ambassador and will be featured in a "Next Generation of Hollywood Stars" in V Mag, shot by Hedi Slimane.

Director's Bio

Born in Paris, France, **Arthur De Larroche** has been a filmmaker since the age of 3 when he made his father record his toy dinosaur fight. His foray into Hollywood came when he was given a 200k grant at the age of 18 to make his first feature. He is thrilled to see his latest feature, REMY & ARLETTA, reach its potential.
